SUMMARY

I'm a Computer Science and Engineering graduate seeking a web development role where I can create responsive, user-friendly, and search-optimized websites. I bring hands-on skills in WordPress, Shopify, HTML, CSS, JavaScript, PHP, and Figma, along with experience in SEO and Google Ads. I'm interested in joining a creative, technology-driven organization where I can improve digital experiences and support business growth.

WORK EXPERIENCE

DOKMI Digital Marketing Agency, Dhaka, Bangladesh

Web Developer

2024 – Present

- Developed and maintain complex web applications using HTML, CSS, PHP, WordPress, Shopify, Laravel, and React.
- Design user-friendly website interfaces and interactive prototypes in Figma using UI/UX design principles, while collaborating with cross-functional teams to deliver projects on time.
- Implement SEO strategies and manage Google Ads campaigns to improve search visibility, website traffic, and performance.

Jr. Web Developer

2022 – 2024

- Developed and maintained complex web applications using HTML, CSS, Figma, and Shopify.
- Collaborated with cross-functional teams to achieve project objectives and complete assigned work within deadlines.
- Tested and debugged websites, resolving technical and performance issues to improve functionality.
